

Guides Choice Tackle South Shore Classic Promotion

**\*Catch The 1<sup>st</sup> place Fish on a Guides Choice Lure and Win Up To An Additional \$500.00**

### **Contingency Rules**

If the 1<sup>st</sup> place fish\* in either the Bluefish or the Striped Bass category is caught using a Guides Choice lure, Guides Choice Tackle will give an additional \$500.00 total. (250.00 for 1<sup>st</sup> place Striped Bass \$250.00 for 1<sup>st</sup> place Bluefish). \* 1<sup>st</sup> place fish as designated by the tournament committee.

To authenticate the winning fish was caught on a Guides Choice Lure, there must be a picture showing the lure in the fishes' mouth, at time of catch. Either digital or print is acceptable. The angler should try to take as many clear photos of the catch as possible, at the time of the catch with the main objective of proving the fish was caught on the specified lure by the specified angler. For example, take a picture of the fish with the lure in its mouth and then a picture of the angler holding the fish, again, the lure in its mouth. **Think magazine cover!** If there are circumstances that prevent this type of proof, the angler must have a witness and show the best pictures possible, that are closest to the required proof, and a decision will be made by Guides Choice as to whether or not the catch can be authenticated. If in the event that the catch cannot be authenticated the contingency money will be withdrawn.

Additionally if the 1<sup>st</sup> place fish (the Largest Bluefish and the Largest Striped Bass, as designated by the tournament rules) are not caught on a Guides Choice lure, contingency monies will be withdrawn.
